

Hany Hamed

Currently, working on exploration and Hierarchical RL

Interested in Reinforcement Learning, Multi-Agent System, & Robotics.

h.hamed.elanwar@gmail.com | h.hamed@kaist.ac.kr | [LinkedIn](#) | [Github](#) | [Google Scholar](#) | [Personal website](#)

EDUCATION

Korea Advanced Institute of Science & Technology (KAIST)

Daejeon, South Korea

Master of Science in Computer Science

Aug 2022 – June 2024

- KAIST's full scholarship
- Member of Agent Machine Learning Lab (AML)
- Supervisor: [Sungjin Ahn](#)

Innopolis University

Innopolis, Russia

Bachelor of Computer Science (Robotics track)

Aug 2018 – June 2022

- Full scholarship
- Outstanding Achievements at Innopolis University for Fall 2020 ([Diploma](#))
- Outstanding Contribution to Science at Innopolis University during 2020/2021 ([Certificate](#)) and 2021/2022 ([Certificate](#))

CGPA: 4.68/5.00 ([Diploma](#))

RESEARCH EXPERIENCE

Bachelor Thesis

June 2021 – June 2022

- "Learning behavioural strategies for multi-robot system in a predator-prey environment using Reinforcement Learning"
- **Keywords**: reinforcement learning, predator-prey, self-play, multi-agent
- **Links**: [Preprint](#), [GitHub repository](#) & [presentation](#)
- **Supervised by**: Prof. [Alexandr Klimchik](#) & Prof. [Stefano Nolfi](#)

Laboratory Assistant

June 2021 – Present

Unmanned Technology Laboratory, Innopolis University

Innopolis, Russia

- Integrating and developing ROS packages of different modules for drones (Gimbal control, RTK GPS, ...etc)
- Integrated Livox lidar with a drone for outdoor mapping
- Developed a handheld Lidar device for indoor/outdoor mapping for an industrial partner ([results](#))
- Developed remote control for drone's payload through ROS and QGS
- Integrate LIO-SAM with lab's self-driving car

Undergraduate Research Assistant

Aug 2019 – April 2021

Center for Technologies in Robotics and Mechatronics Components, Innopolis University

Innopolis, Russia

- Implemented a gym environment for a Tensegrity hopper
- Developed experiments using ARS RL algorithm to learn a stabilizing control policy for a tensegrity hopper
- Designed and implemented a contactless differentiable physics simulator for tensegrity robots using Taichi
- Performed research on sim2real transfer for a three-prism tensegrity robot

PUBLICATIONS & IN PROGRESS MANUSCRIPTS

- G. Kulathunga, H. Hamed, D. Devitt, and A. Klimchik, “Optimization-based trajectory tracking approach for multi-rotor aerial vehicles in unknown environments,” *IEEE Robotics and Automation Letters*, 2022 ([IEEE paper](#), [arXiv](#))
- V. Kurenkov, H. Hamed, and S. Savin, “Learning stabilizing control policies for a tensegrity hopper with augmented random search,” in *2020 International Conference on Industrial Engineering, Applications and Manufacturing (ICIEAM)*, pp. 1–5, IEEE, 2020 ([code](#), [paper](#))
- L. Vorochaeva, S. Savin, and H. Hamed, “Lateral gait analysis of a crawling robot by means of controlling the lengths of links and friction in the supports,” in *2020 International Conference Nonlinearity, Information and Robotics (NIR)*, pp. 1–6, IEEE, 2020 ([paper](#))

TEACHING EXPERIENCE

Teacher Assistant (TA)

May 2022 – July 2022

Innopolis University

Innopolis, Russia

- Assisting in developing and teaching “Introduction to ROS” summer course for first-year university students as a third semester (Class size: 15 students)
- Conducting and teaching practical labs for the students
- Developing, preparing, and grading assignments

SELECTED AWARDS & CERTIFICATES & SUMMER SCHOOLS

Online Asian Machine Learning School ([OAMLS 2021](#), [certificate](#))

November 2021

- This school covered multiple topics in Machine learning: computer vision, deep learning, NLP, representation learning, transfer learning, reinforcement learning, causality and meta learning.

European Agent Systems Summer School ([EASSS 2021](#))

July 2021

- The summer school explored different topics related to multi-agent systems around cooperative systems, reinforcement learning, game theory, modeling and simulation.

3rd place DOTS competition from Bristol Robotics Lab and Toshiba ([Certificate](#))

June 2021

- The competition was about developing an algorithm for multi robots to collect food items and return it to the storage in a gazebo simulated environment.

Winter School on Machine Learning in Robotics ([Certificate of Participation](#))

Dec 2020

- This school explored the intersection of machine learning in robotics in areas of reinforcement learning, and computer vision

SKILLS & TOOLS

- ROS, Python, C/C++, PyTorch, Docker, Git, Linux

WORKING EXPERIENCE

Technical Intern

July 2019 – Aug 2019 - [[Doc](#)]

Copter Express

Moscow, Russia

- Had a training about main components and construction of drones
- Had a training on programming COEX's drones (ROS, px4 and indoor navigation using Aruco markers)
- Developed a human pose estimation with a webcam using Tensorflow.js to control a drone
- Integrated RTAP-Map SLAM algorithm with COEX's drone using Intel Real-Sense T265 and D435 cameras

PROJECTS

- Drone Detection (Computer Vision project course)** | [Link](#) | *PyTorch* September 2021
- Collected and labeled a diverse dataset
 - Implemented training scripts for Faster R-CNN pretrained models from detectron2
- Human Pose Estimation Drone Control** | [Link](#) | *Python, TF.js, ROS* July 2019
- Explored and tested different human pose estimation modules
 - Integrated a drone controller with human pose estimation module built with TensorFlow.js

EXTRACURRICULAR ACTIVITIES

- Judge at WRO International Finals [Advanced Robotics Challenge - ARC]** | [Certificate](#) 2019
- Developed the game rules for the international competition
 - Judged the Russian qualifications as the Head judge and the International competition as a judge
 - Collaborated in the development of a playground generator for the competition using C++ and Javascript
- Participant in RoboCup Junior Egypt Open Weight Soccer Category (2nd place)** 2018
- Developed ball detection using OpenCV and the robot's game controller algorithm
 - Developed PCB boards for the robot
